Cavalero Hill

7708 20th St. SE, Lake Stevens

Type: Community

Acreage: 33

Acquisition Date: 2001, 2006

Funding Source: Conservation
Futures

Description: This 33 acre site is located at the intersection of Cavalero Rd. and 20th St. SE. The site is bordered on the east and south by residential parcels, and the Cavelero Mid-High School located southeast of the property. This site includes two off leash dog areas – one undesignated and the other designated for shy dogs.

History: The property has formerly been used for agricultural purposes. Prior to acquisition by Snohomish County, the previous owners sought to develop the site commercially.

Features: Two off-leash dog areas, parking and sani-can

Future Plans: The park has been master planned for future development, including walking trails, picnic shelters, children's play area, basketball and volleyball courts, etc. Development of the master plan was completed prior to acquisitions in 2006, which added 5 acres to the park. Funding is being accumulated for eventual development and a review of the master plan will be conducted when development is pending.

Centennial Trail

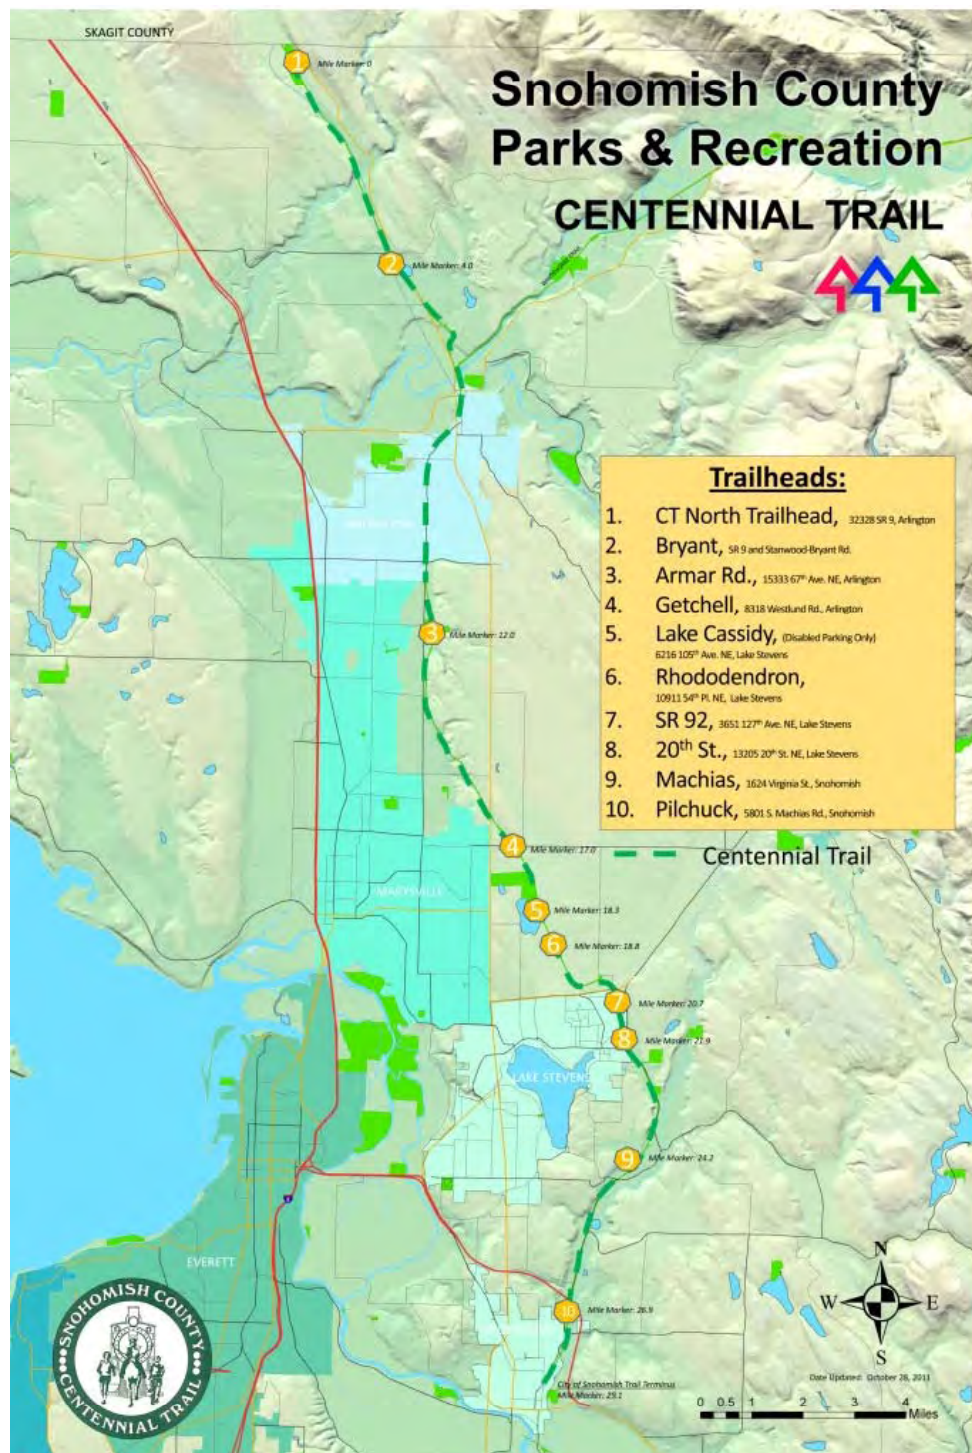

Developed – City of Snohomish to Skagit County

Type: Trail

Acreage: 495

Acquisition Date: 1990-2008

Funding Source:

Description: An enormously popular recreational trail for walking, bicycling, hiking, and horseback riding accessible to people of all levels of physical ability. The trail provides a safe alternative transportation route connecting the Cities of Snohomish, Lake Stevens and Arlington and Skagit County and points between. The linear park also serves as a wildlife and conservation corridor protecting sensitive and important natural and cultural resources.

History: The right-of-way for the Centennial Trail was originally acquired and the railway built north of Snohomish by the Seattle, Lake Shore, and Eastern Railroad (S.L.&E.) in 1889. Development of the trail began in 1989, hence the name, Centennial Trail. The S.L.&E. eventually connected Seattle north with Canada and linked Everett east with Stevens Pass. In 1892 the Sumas Branch line between Snohomish and Arlington was purchased from S.L.&E. by Northern Pacific and later sold to Burlington Northern, in 1970.

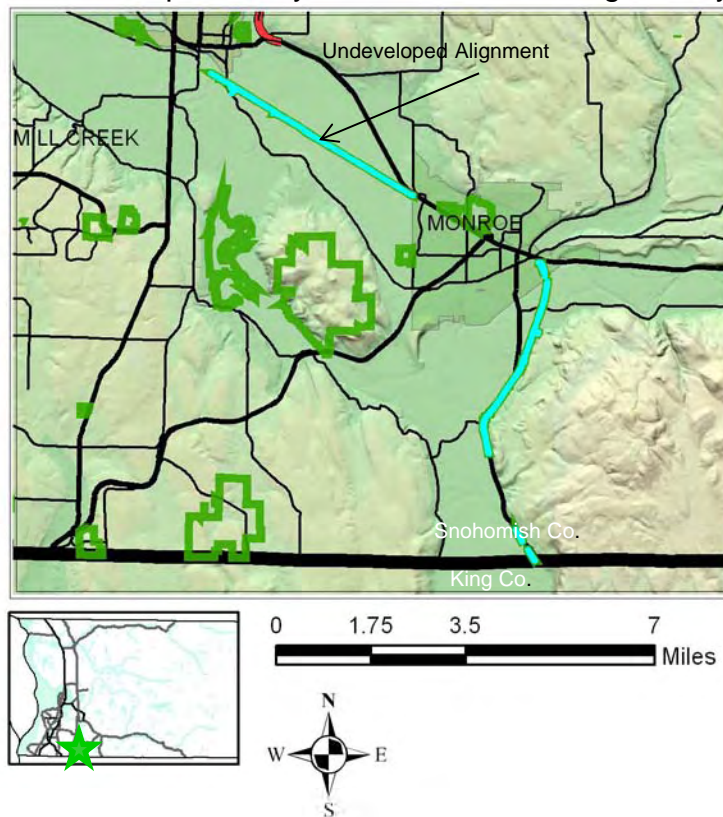

Centennial Trail

History (cont.): Operation ceased on the Hartford-Edgcomb section in 1972 and on the Snohomish-Hartford section in 1987. To the south in King County, a section of this same abandoned S.L.&E. line has become Seattle's heavily used Burke-Gilman Trail, and King County's Sammamish River Trail. The railroad provided local and international mail, freight, and passenger service. It carried timber from the forests, lumber from the saw mills, and iron, copper, lead, silver, and gold from Mount Pilchuck and Monte Cristo mines. Tourists could ride in open rail cars to Monte Cristo and back for the day, winding through the steep canyons of the South Fork Stillaguamish River, or go to the Big Four Inn at the ice caves on the "Mountain Loop" to the east.

Undeveloped – City of Snohomish to King County

Features: Paved and soft surface equestrian trail with a playground and restroom at the Machias trailhead, picnicking, parking and sani-cans. Some portions of the Centennial Trail remain undeveloped.

Future Plans: Continued development

Centennial Trail Mitigation Site

East of Marysville

Type: Open Space/Preserve

Acreage: 10

Acquisition Date: 2003

Funding Source:

Description: An undeveloped parcel, which was acquired in 2003 to mitigate for development of a portion of the Centennial Trail.

History: Acquired in 2003 for Centennial Trail development mitigation.

Centennial Trail North Trailhead

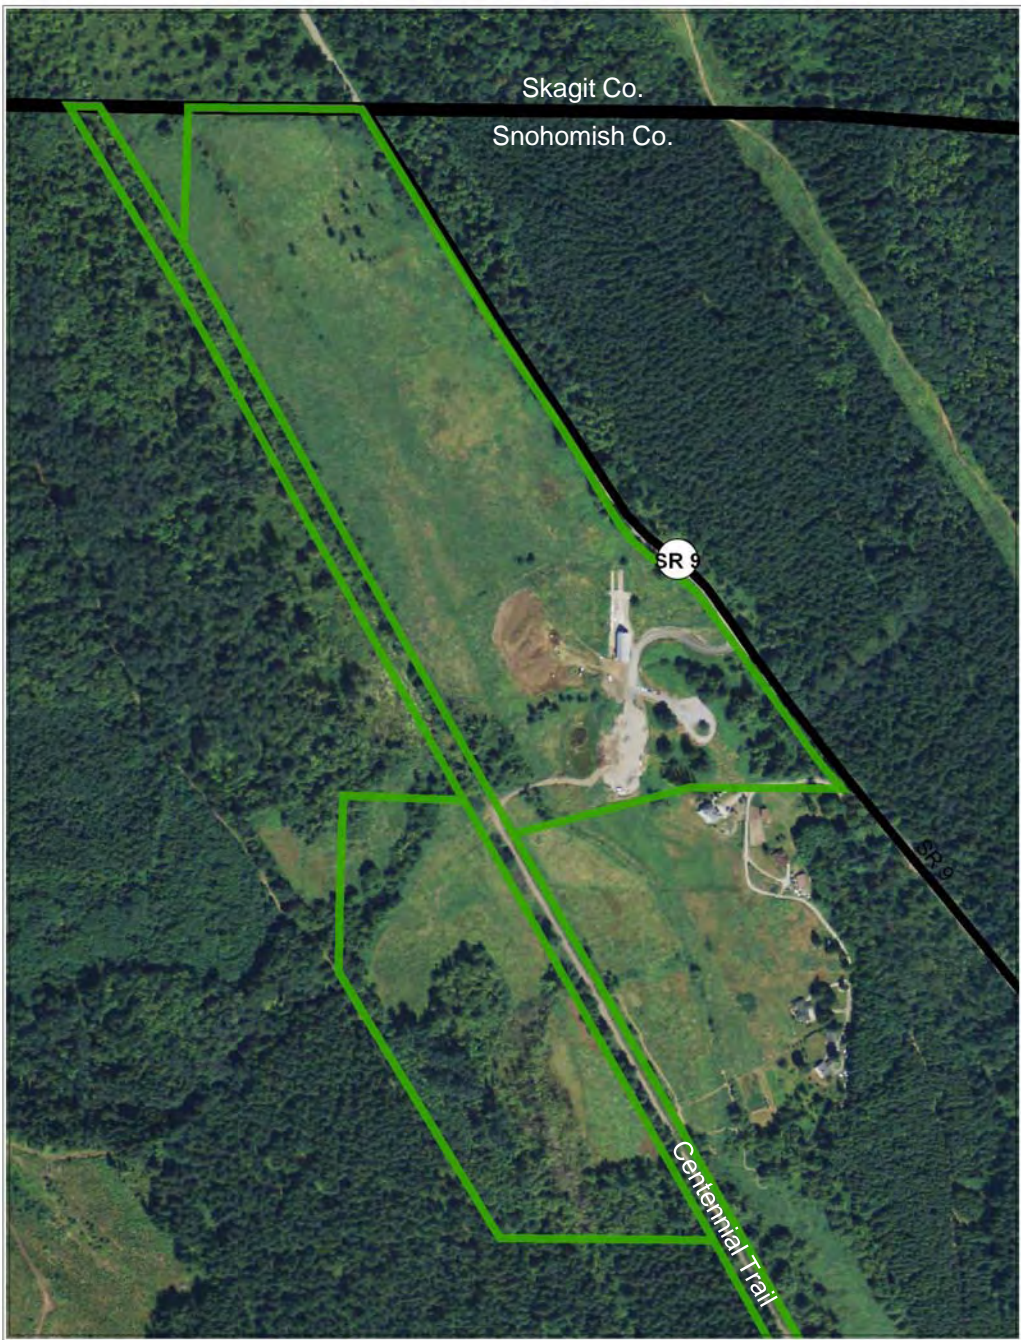

32328 SR 9 NE, Arlington

Type: Regional

Acreage:84

Acquisition Date: 1997

Funding Source: Conservation
Futures

Description: Located on the Skagit/Snohomish County line, this property is the northern terminus for the Centennial Trail. Construction of the trailhead was completed in 2012. Parking is provided as well as picnic tables and a sani-can. Other portions of the property include open meadow and wetland areas.

History: Prior to purchase, this property was used for farming. The property includes a barn which was built in 1908 and was placed on the Washington State historic register in 2007.

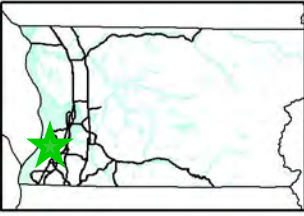

Features: Trailhead parking, picnicking and sani-can

Future Plans: None

Chevron Parklands

Southwest Mukilteo/Picnic Point Area

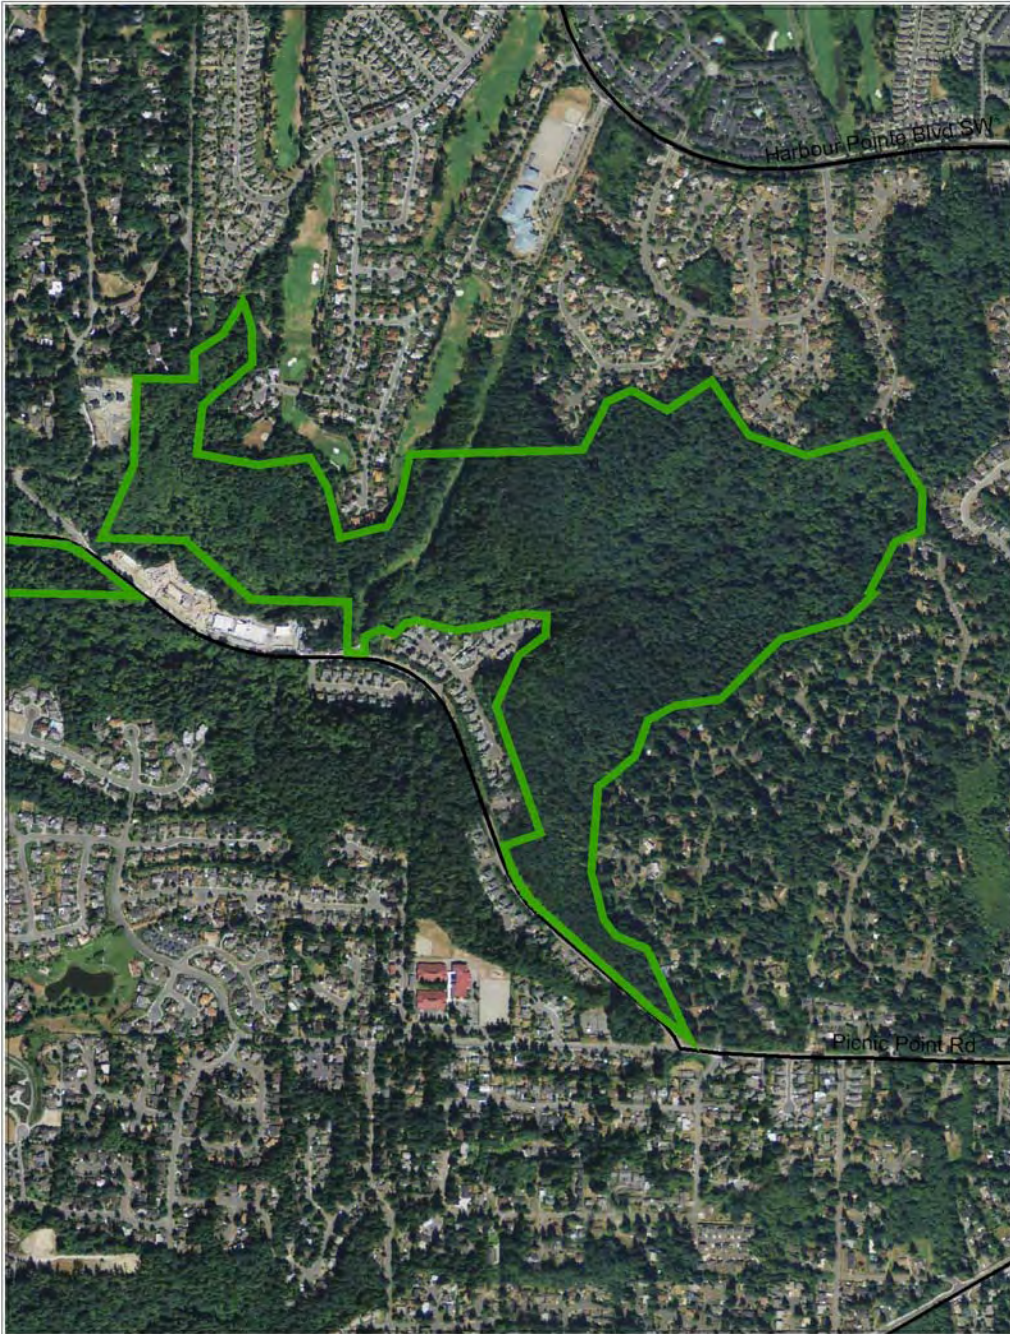

Type: Neighborhood

Acreage: 147

Acquisition Date: 1978-98

Funding Source: Deeded

Description: A series of large open space tracts situated between residential neighborhood areas in the Harbour Point development south of the City of Mukilteo. The property includes several large and small heavily wooded gulches, with a few walking trails and Picnic Point Creek that flows into Puget Sound.

History: Deeded to Snohomish County by Chevron USA in 1978 as part of the Harbour Point residential development process. A portion of the Chevron Parklands holding was transferred to the City of Mukilteo as part of an annexation action.

Esperance Park

7830 222nd SW, Edmonds

Type: Community

Acreage: 6

Acquisition Date: 1986

Funding Source:

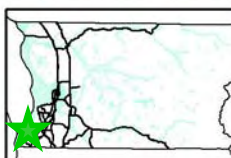

Description: Located at the intersection of 80th Ave. W and 222nd St. SW near Edmonds. The park includes two practice size soccer fields, a little league baseball field, two volleyball courts and a playground. The northwestern portion of the park has a mature second growth forest with nature trails.

History: The property was formerly owned by the Edmonds School District. The land was to be surplus and sold for housing development. A community activist group, The Action Council for Esperance ('ACE'), petitioned Snohomish County to acquire the site for a Community Park. In recent years, improvements have been made to the baseball field.

Features: Little league field, practice soccer fields, volleyball courts, playground, forest trail and picnicking

Flowing Lake

17900 48th SE, Snohomish

Type: Regional

Acreage: 38

Acquisition Date: 1968

Funding Source: IAC

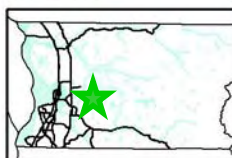

Description: Flowing Lake Regional Park offers a multitude of recreation opportunities. The campground contains approximately 42 campsites, most with water and electrical hookups, and four cabins are available. The park is extremely popular for day-use access to Flowing Lake and the swim area and boat launch are heavily used. A playground, shelter and picnic tables are also available in the day-use area and a nature trail is located in vicinity to the campground.

History: Snohomish County acquired the land in 1968 from the Leckie family, which had run the property as a small resort. Park development began in the early 1970's.

Features: Cabins, 42 campsites, playground, lake access, swimming, picnicking, shelter, Ranger office, boat launch, trail, amphitheater, parking and restrooms

Forsgren

23709 Carter Rd., Bothell

Type: Community

Acreage: 13

Acquisition Date: 1954

Funding Source:

Description: Forsgren park is located in a heavily developed area of unincorporated Snohomish County, between the Cities of Bothell and Brier. The park provides two soccer fields, two little league fields and a playground.

History: The property was formerly a county gravel pit. It was reclaimed in the early 80's and transferred to the Parks Department. The first development of the site was funded by a HUD grant. The grant provided for grading and seeding of the soccer fields. An all-weather soccer field and baseball field was added by the North Shore Youth Soccer Association. The association maintains the fields and schedules games.

Features: Two little league baseball fields, two soccer fields, playground, picnicking, parking and sani-can

Miles

Description: Bike riders, walkers, joggers and others enjoy travelling the 18.8 miles of paved surface. This trail stretches between the Cities of Everett and Edmonds, with the portion south of Everett and north of Lynnwood maintained by Snohomish County. While most of the trail is separated from motorized traffic, there are several places where the trail is designated bike route on the road shoulder.

History: The Interurban Trail follows the route once used by the Interurban Trolley that ran from Ballard to Bellingham in the early days of the 20th Century.

Features: Paved, designated trail

Future Plans: None

Jordan Bridge

14300 Jordan Rd., Arlington

Type: Regional
Acreage: 1
Acquisition Date: 1991
Funding Source:

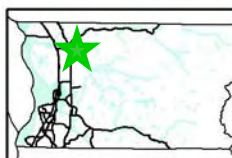

Description: The primary feature of this small park is a suspension bridge across the South Fork of the Stillaguamish River. A path leads to the river shore where visitors can swim and relax during the summer.

History: The Jordan Bridge was first constructed in the early 1900's. The swinging bridge was historically utilized as the northerly access to the Jordan Bridge community. The bridge was constructed to provide access for children to attend school at Jordan, and to provide a shorter route to the City of Arlington, on the south side of the river. The bridge was condemned in November of 1972 due to its dilapidated condition. It was rebuilt in the 'swinging bridge' style in the 70's and closed again for repair in the 90's.

Features: Water access, picnicking and parking

Future Plans: None

Kayak Point

15610 Marine Dr., Stanwood

Type: Regional

Acreage: 302

Acquisition Date: 1972

Funding Source: IAC

Description: A spectacular 302-acre saltwater, beach park located along the shores of picturesque Port Susan. From its 3,300 foot shoreline to its evergreen forest, Kayak Point Regional Park offers a rich setting for a variety of outdoor activities, including camping, pier fishing, windsurfing, picnicking and hiking. This site also provides ten yurts.

History: Formerly a private resort with beachfront cabins, a fishing pier and store. A large kayak hung over the resort's entrance. The resort was purchased by Atlantic Richfield to be used as a refinery site. Snohomish County Parks purchased and developed the site with the county's first bond issues and IAC funding assistance.

Features: Saltwater access, boat launch, fishing pier, playground, shelters, picnicking, trails, camping, parking and restrooms

Future Plans: Re-master plan, renovations and expansion/upgrades of camping.

Type: Community

Acreage: 13

Acquisition Date: 1944

Funding Source: Custodial
Transfer 1995

Description: A 12.8 acre, former County gravel pit site along Machias Rd., 1.5 miles southeast of the City of Lake Stevens. The property is currently being used by Snohomish County Public Works for material storage. The main portion of the site is a sandy, shallow bowl, flanked by high, steep slopes on the north and south sides.

History: Acquired by Snohomish County Public Works in 1944 for the extraction of sand and gravel for road purposes. The property was transferred to Parks in 1995 and a master plan for park development was completed in 1999.

Features: Currently undeveloped

Future Plans: Development of a little-league baseball and soccer field complex.

2013 Comprehensive Park & Recreation Plan

Martha Lake Airport

146th St. W, Lynnwood

Type: Community

Acreage: 30

Acquisition Date: 2000

Funding Source: NIP, IAC

Description: A 30.48 property just north of Martha Lake and east of I-5, surrounded by residential development. This park was recently developed (dedicated October 11, 2010) and provides trails, soccer and baseball fields, art pieces, playground, restroom and Parks' first skateboard park. A portion of this property is still undeveloped.

History: Acquired by Snohomish County in 2000 from private owners. The property had previously been used as an airfield and design components reflecting this history have been integrated into park development.

Features: Baseball field, soccer fields, sculptures,, playground, skatepark, walking trails parking and restroom

Future Plans: Development of remainder of the site.

Martha Lake Park

16300 E. Shore Dr., Lynnwood

Type: Community

Acreage: 6

Acquisition Date: 1992

Funding Source:

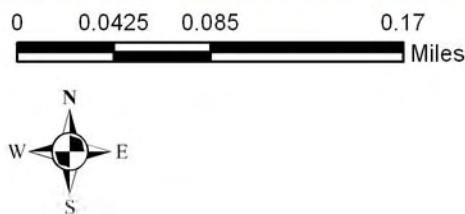

Description: This popular 6.27 acre park offers a natural setting within the heart of a fast-growing urban area. The park includes a fishing dock, boardwalk through wetlands, swim area and three reservable picnic shelters. A playground is located near the parking area.

History: Before Martha Lake Park was developed, it was known as 'Martha Lake Tavern,' which offered the only beach access to the lake. The previous owners of the property hoped to develop condominiums or a business park on the property. Community groups organized and requested that the property be developed into a public park. After the owner's development plans proved to be infeasible, the wishes of the community groups were realized and the Parks and Recreation Department acquired the property.

Features: Lake access, swimming, handicapped accessible swim area, fishing docks, picnic shelters, picnicking, boardwalk, playgrounds, parking and restroom

Future Plans:

McCollum

600 128th St. SE, Everett

Type: Regional

Acreage: 74

Acquisition Date: 1958

Funding Source:

0 0.125 0.25 0.5 Miles

Description: McCollum Park is a 74 acre family-oriented park, providing ballfields, jogging/walking trails, a junior Olympic-sized, heated outdoor swimming pool and open lawn areas with picnic tables and shelters. WSU Extension and the Adopt-A-Stream Foundation have facilities that are located on the site.

History: In the early 1940's, the site served as the primary dumping facility for south Snohomish County. In the mid 60's, local residents and an association of county clubs known as the 'South End Federated Clubs,' in conjunction with the newly established Parks Department, began procedures to formally close the landfill and convert the property to park use. In 1968, the county passed a bond issue that in part funded the first phase improvements of McCollum Park, including closing of the landfill and construction of the swimming pool. In 1980, the Park Department administrative offices were built on the site. Then, in 1984, the Washington State University Extension Services moved into the former park building, and continue to occupy two large buildings for administrative headquarters and classroom use.

The area surrounding McCollum Park was at one time known as Emander. A group of individuals called the 'Pioneers of Emander' were involved in the early improvements of the park; most notably the design, funding and construction of the large picnic shelter.

Features: Soccer and baseball fields, trails, swimming pool, picnicking, playground, parking and sani-cans

Future Plans:

Meadowdale Beach

6026 156th SW, Edmonds

Type: Regional

Acreage: 108

Acquisition Date: 1971

Funding Source:

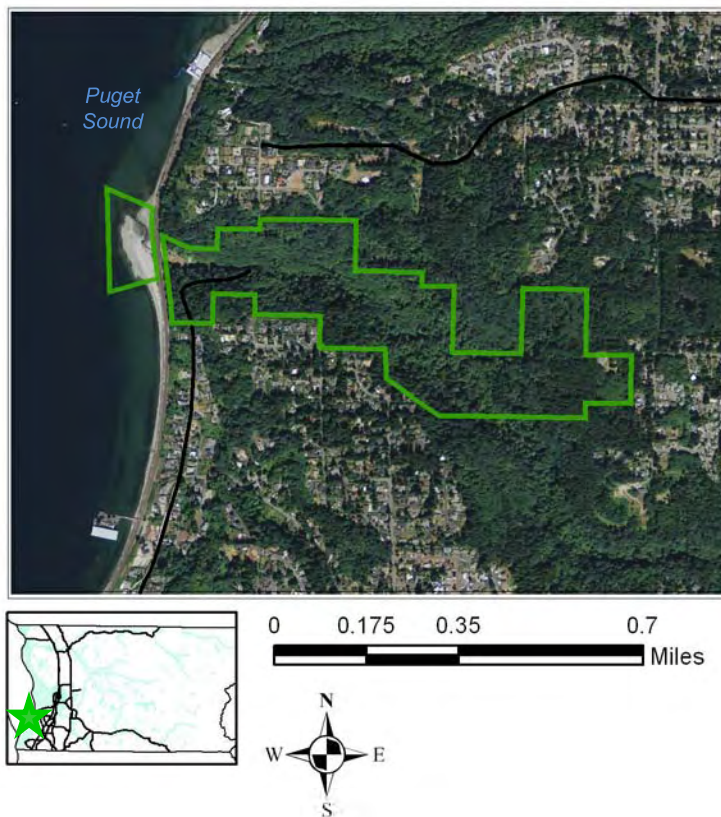

Description: Meadowdale Beach Park consists of large portions of Lund's Gulch, which runs east/west, ending at Puget Sound. Lund's Gulch Creek runs in the valley of this gulch and the park trail, which connects a parking lot at the top of the gulch with Puget Sound, is located alongside the creek in many places. At the western end of the trail, an open grass area is available for picnicking, as well as a sand volleyball court and a shelter. A short tunnel underneath the Burlington Northern Railroad grade connects park visitors with a sandy beach and the open water. ADA parking is available at the lower end of the park.

History: The gulch area passed through several owners before it became a park. The first person to homestead the site was John Lund in 1878. The site was eventually acquired by the Meadowdale Country Club. The private park featured a clubhouse, manicured lawns and Olympic-sized swimming pool with bath house, as well as a fish hatchery. For various reasons, including problems with access road failure, the club closed in the late 1960's.

The Snohomish County Parks Department acquired the former clubhouse site and several other parcels in 1968 for the purpose of developing a public park with beach access.

Features: Saltwater access, trail, playground, sand volleyball, picnicking, water trails camping, parking and sani-can.

Future Plans:

Meadowood

14232 21st Ave. NE, Stanwood

Type: Open Space/Preserve

Acreage: 2

Acquisition Date: 1970

Funding Source: Dedication

Description: A 2.2 acre property, located on 21st Ave. NW, north of 140th St. SE. This is a two parcel, open space holding composed primarily of grassed fields and a small wooded area.

History: Dedicated to Snohomish County from a residential plat.

Features: Undeveloped

Future Plans: None

2013 Comprehensive Park & Recreation Plan

Miners Corner

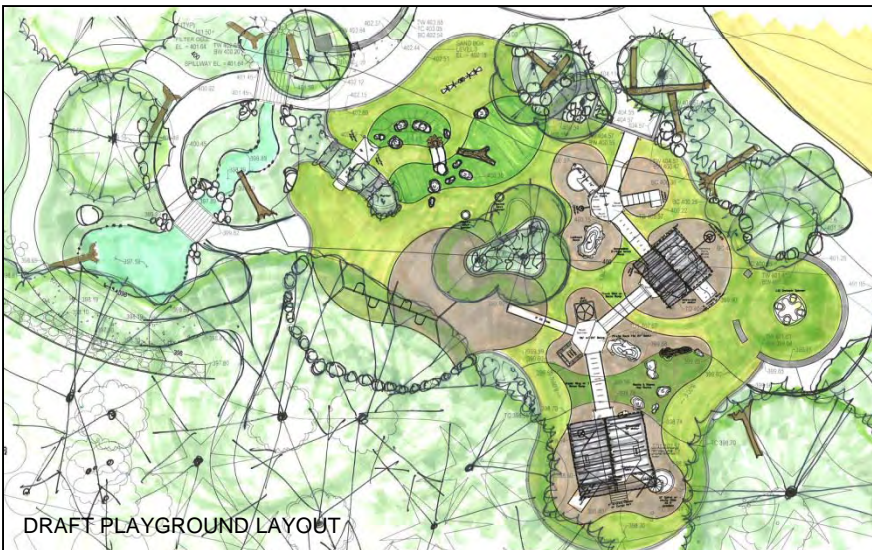

22903 45th Ave. SE, Bothell

Type: Community

Acreage: 13

Acquisition Date: 2008

Funding Source: Mitigation

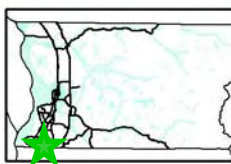

Description: Miner's Corner Park is located adjacent to the City of Bothell UGA and is scheduled for development in 2013. The site has been master planned for community use, with an open field, playground, trails, shelter and basketball court planned as primary park features. Due to the gentle slope of this site, it is especially well suited to accessible use and is planned to provide maximum ADA accessibility throughout the facility.

History: Acquired in 2008 for Community Park use.

Features: This park is currently undeveloped, but is anticipated to include a playground, open field area, trails, basketball court, shelter, parking and restroom.

Future Plans: Development in 2013.
